Reflux/Redux   p5js

EXPERIENCE

September 2020 – present
Mutations Ltd
Software Engineer Contractor + Consultant
Technologies: **React, Sanity CMS, Gatsby**

» Work with clients to identify their needs and work with them to create low-fi mockups of new software projects

March 2017–April 2020 (3 years)
Patreon
Senior Frontend Engineer+ Team Lead
Technologies: **Flask, React, Redux**

» Lead Patreon's Frontend Core team, which is responsible for frontend testing, performance, infrastructure, accessibility, core UI components, and developing best practices
» Lead the engineering charge for Patreon's publically accessible design system
» Refreshed, onboarded people onto, and administered the two most technical frontend interview questions
» Acted as an accessibility evangelist by manually auditing the product, contributing to the a11y roadmap, raising awareness across the org, and acting as a liason between engineering, legal, and product
» Mentored junior engineers and designed and lead onboarding process for new hires
» Illustrated and animated foxes for Patreon's 404 page and site under maintenance page

March 2015 – Feb 2017 (~2 years)
Honor Technologies
Frontend Engineer
Technologies: **Flask, Django CMS, React, SASS**

» Worked as only one of two front-end engineers on both internal tools and the customer-facing web application.
» Led—in general direction, engineering, and design—the creation of Honor's internal recruiting tool and external blog
» Worked on sign-up flow, data collection and visualization, and spearheaded Salesforce, WordPress, Autopilot, Workforce, and OnboardIQ integrations.

Aug 2013 – March 2015 (~1.75 years)
Yammer Inc./Microsoft
Data Engineer
Technologies: **Ruby on Rails, Backbone.js, d3.js**

» Programmed, tech led, and demoed features for an internal analytics platform intended to make Microsoft more data-driven.
» Gave presentations at internal Microsoft-wide analyst and data engineering conferences about the correct use of analytical tooling.
» Worked on the O365 event logging API

Summer 2011
